

Designed by the SAILONET design office, it is made by our SAILONET sailmaking partners, following our technical specifications.

This range is particularly suited to family coastal cruising, charter and long distances.

The sails in the JUPITER range are made of tough Polyester DACRON® in a weight suited to your sail and the kind of sailing you do.

The medium genoas of the Jupiter range are equipped as standard with bronze snap shackles that can be used with one hand.

The very full inventory (three-point eyes, leech and foot line, draft stripes, telltales) optimizes and makes your genoa easier to use.

All sails are sold in their bag, ready to sail. They are guaranteed for two years.

## JUPITER

Polyester sailcloth high tenacity  
Weight adapted to the boat and the sailing program

Assembly by 1 or 2 seams  
in Zigzag 6 steps

Sewing thread with specific  
sailmaking treatment

Leech and foot line  
with cleats

Radial corner reinforcements
