

# VENUS Range

Designed by the SAILONET design office, it is made by our SAILONET sailmaking partners, following our technical specifications.

This range is particularly suited to long cruises, charter and long distances. This sail is a "Must".

The sails in the VENUS range are made of Mylar sailcloth laminated with double-backed Taffeta. The radial cut makes the possibility to use different sailcloths and weights to optimize performance.

The furling genoas of the VENUS range are equipped as standard with an anti-UV strip made of Sunbrella® acrylic cloth and foam luff pad.

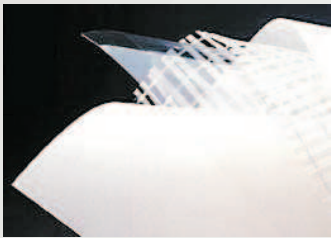

The full inventory (tack and head straps, furling indicators, leech and foot lines, reefing labels, tell tails) optimizes and makes your gennaker easier to use.

All sails are sold in their bag, ready to sail.

Guarantee 2 years.

## VENUS

Mylar sailcloth laminated with double-backed Taffeta with radial cut for better shape control.  
Enhanced performance

Assembly by 1 or 2 seams in Zigzag 6 steps
