

Designed by the SAILONET design office, it is made by our SAILONET sailmaking partners, following our technical specifications.

This range is particularly suited to family coastal cruising, charter and long distances.

The sails in the JUPITER range are made of tough Polyester DACRON® in a suited weight for your sail and the kind of sailing you do.

The furling mainsails of the JUPITER range are equipped as standard with an UV protection made of Sunbrella® (acrylic cloth) and mainsail outhaul block.

The full inventory (tack and head webbing, reefing labels) optimizes and makes your furling mainsail easier to use.

All sails are sold in their bag, ready to sail.
Guarantee 2 years.

JUPITER
